## Boy's Curiosity Seems Aroused

—New Castle News Photo

Curiosity and rain combined to make a perfect human-interest picture for the News photographer during the storm late Friday afternoon. The young mother and her son were stranded on the curb as muddy water filled the gutter. The little fellow, with little regard to the downpour, wanted to know where the water was going.

## Congress Has Measure Providing Six Billions For Anti-Red Battles

By RAYMOND WILCOVE  
(U. S. Staff Correspondent)

WASHINGTON, March 20.—An anti-Communist program of global proportions, backed by more than six billion dollars in American economic and military assistance, emerged today in Congress after three months of study, debate and controversy.

The House foreign affairs committee added almost one billion dollars to the Marshall plan legislation adopted by the Senate March 13 and broadened it to include four additional nations.

Over Six Billions  
It provided a total of six billion 205 million dollars for 21 nations in Europe and Asia, divided as follows:

1. Sixteen non-Communist European nations, plus western Germany.

Pa Newc Observes  
New Castle and Lawrence County apparently got a little effect of the tornadoes and cyclonic storms that swept the nation on Friday afternoon and evening, when terrific wind and heavy rain struck the community. Some damage was done in this area, but no casualties were reported.

Spring made its debut today, according to the calendar. Following a night of real storms, the day dawned clear and bright, a mild spring-like day, much to the pleasant surprise of local residents.

Tomorrow will be Palm Sunday, and as such will occasion special programs in churches of the community. The Pre-Easter services are now reaching their climax. Easter Sunday comes in one week, March 23.

Heavy rain of Friday afternoon cleaned much of the ashes and winter accumulations from many of the streets of the city, nature doing a little housecleaning on its own.

## Inside Facts On Draft Demand Will Be Sought

Senate Committee Summons Marshall And Forrestal To Secret Conference

LACK OF DETAILS ANNOYS CONGRESS

By FRANK B. ALLEN  
(U. S. Staff Correspondent)

WASHINGTON, March 20.—Senate Armed Services committee members planned today to ask Secretary of State Marshall and Defense Secretary Forrestal just how close the United States is to war with Russia.

Both cabinet members have been summoned to appear at a secret committee hearing Monday afternoon, at which time they will be asked for the "inside story" behind the President's sudden demand for the draft.

Complete Surprise  
Committee members said that three days ago when they conferred privately with Marshall he assured them that the draft was not in the national defense picture. Hence Mr. Truman's bid for a temporary draft came, they said, as a "complete surprise."

They added that they have yet to "receive any detailed justification" for the President's proposal.

## Sick Of Strikes, Two Join Army

WHEELING, W. Va., March 20.—(INS)—Two coal mining brothers were in the army today because they were sick and tired of strikes.

Emery Hingley, of Wheeling, and Stanley Hingley, of Elkins, told the recruiting officer they "were just fed up with having to take these layoffs," and so enlisted.

The brothers, veterans of World War II, said if they have to march out they "may as well march for Uncle Sam as Uncle John."

MARSHALL STARTS HOME  
OAKLAND, Cal., March 20.—(INS)—Secretary of State George C. Marshall took off from Oakland Airport at 8:18 a. m. P. S. T. today in President Truman's private plane, the "Sacred Cow," for Los Angeles.

Marshall, who delivered a major foreign policy address at the University of California yesterday, will speak this afternoon at the University of California at Los Angeles.

Extra Van Horn, of Cleveland, operators' trustee of the miners 30 million dollar welfare fund, petitioned the U. S. district court in Washington to name a third neutral trustee to attempt to break the pension deadlock.

Van Horn and Lewis currently are the only trustees on the welfare fund board and they have been unable to reach a settlement on the union's demand for a \$100 a month pension for aged miners. The former neutral trustee, Thomas Murray, of New York, resigned January 16.

## Tornadoes Blast Wide Path Across Several States

Report At Least 53 Dead And Hundreds Injured In Storm Areas

DAMAGE WILL REACH MILLIONS

By WILLIAM PADDOCK  
(U. S. Staff Correspondent)

CHICAGO, March 20.—

Tornadoes and cyclonic winds which blasted a wide path of destruction from Texas to New York left at least 53 dead today, 500 injured, millions of dollars' damage and two Illinois communities virtually leveled.

Illinois, Kentucky, Michigan, Missouri and Ohio recorded fatalities from yesterday's gales and freak storms. Property damage and injuries—but no deaths—were reported in Indiana, Kansas, New York, Oklahoma and Texas.

Hardest Hit Areas  
Hardest hit was Illinois, where the American Red Cross disaster crews listed 43 dead and 375 injured.

Illinois Gov. Dwight H. Green declared martial law in Fosterburg, which was 95 per cent destroyed, and Bunker Hill, which had only 20 per cent of its buildings standing.

National Guard and Fifth Army troops were rushed into the stricken Illinois area to aid the Red Cross in helping the injured and homeless.

Assistant Director H. A. Eichman of the ARC midwestern disaster service, who was directing relief operations at Bunker Hill, said 150 persons were hospitalized. He said an additional 100 were treated for injuries in the community of 1,300 population.

## British Cabinet To Discuss New Palestine Issue

Will Meet Next Week To Determine Whether Mandate Will Be Extended

LONDON, March 20.—(INS)—The British Foreign Office announced today that a cabinet meeting next week will determine whether Britain will retain her Palestine mandate after the present May 15 deadline.

United States renunciation of partition, a spokesman said, has made it "obviously impossible to leave Palestine earlier as we had hoped."

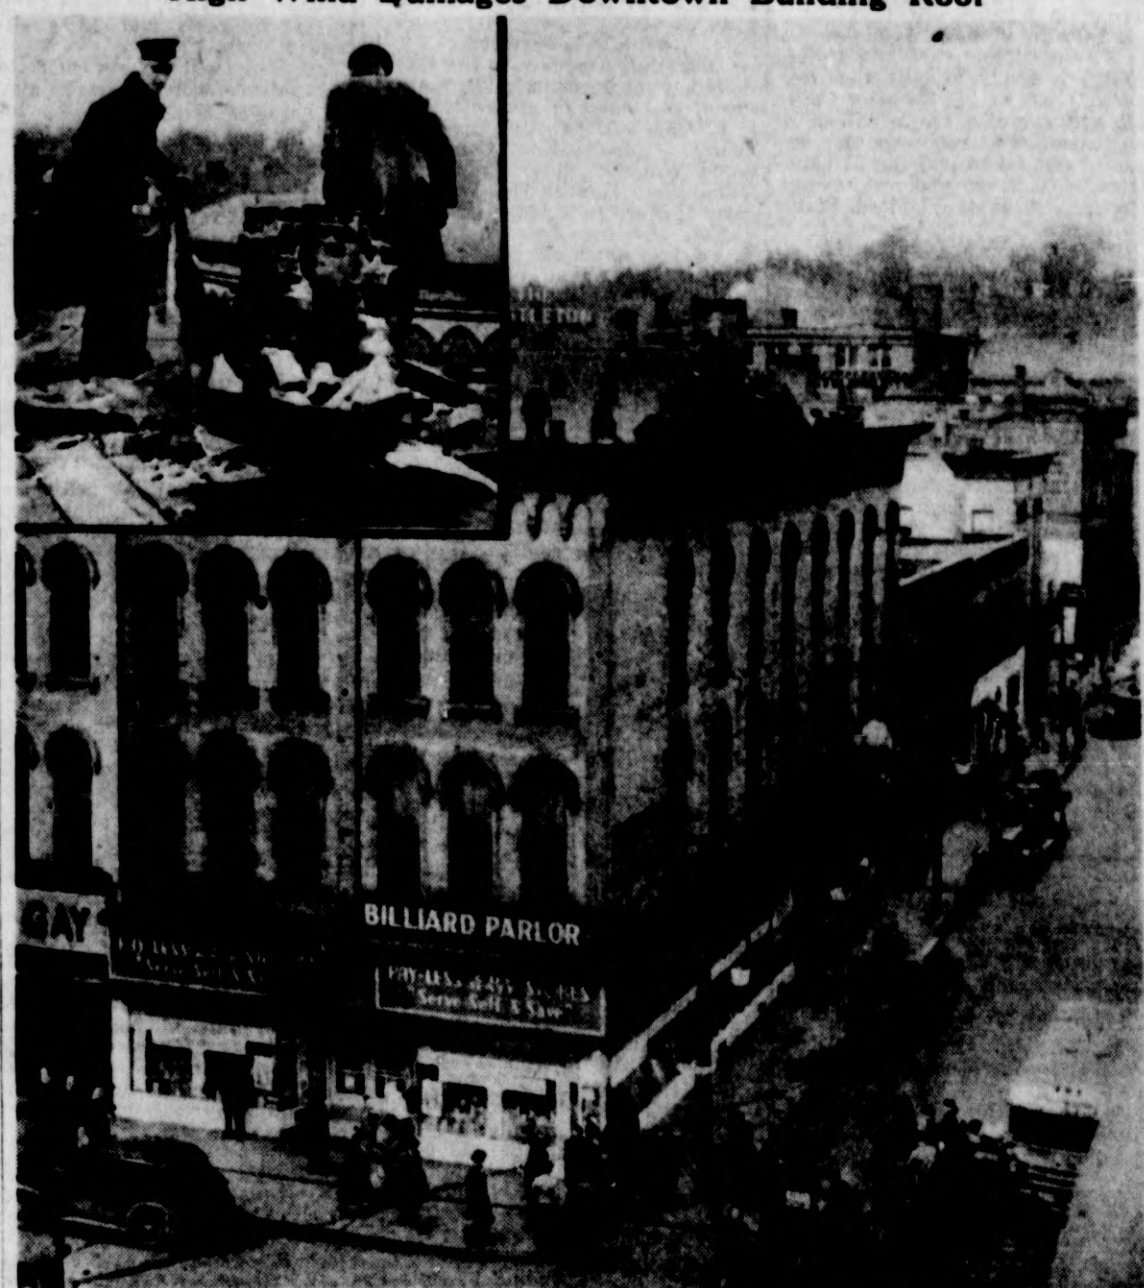

The spokesman added that Foreign Minister Ernest Bevin and Colonial Secretary Arthur Creech-Jones will meet this week end to discuss the United States proposal that the Holy Land be placed under United Nations trusteeship.

He stressed that until a full cabinet meeting confers on the recommendations of the two ministers, Britain's present policy remains in effect.

This calls for laying down the mandate by May 15, and evacuation of all troops from Palestine by August 1.

Nevertheless, the spokesman cautioned, present British policy does not mean that Britain will oppose trusteeship, and it does not preclude British participation in trusteeship.

## High Wind Damages Downtown Building Roof

Two views of the damage done by high wind on the roof of the Foltz building Friday afternoon. The large picture is a general view of the scene with firemen crossing the rooftop and the building to prevent it from falling into the street below.

Only the fact that the tin roof, in extent was picked up and crumpled by the force of the gale, hanging suspended over the edge of the roof.

A few pieces of wood, torn loose by the sudden gust of wind, were hurled down into the street, but fortunately, no person was struck by the flying debris.

City firemen were called, and secured the crumpled tin, so that it did not blow off from later gusts of wind.

Third U. P. Church Will Be Scene Of Regular Meeting Of Church Men

Men's Christian Fellowship Will Meet On Sunday

Lawrence county will meet in the Third U. P. church, East Washington, at Adams street, on Sunday afternoon, March 21, at 2:30 o'clock for the regular meeting of the recently formed organization.

The meeting is open to any adult male over 16 years of age who professes an interest in "Christian Fellowship" without regard to race, color or creed. Purpose of the organization is to strengthen the male individuals of the community in his faith and strengthen his interest and activity in the church of his choice.

An outstanding feature of the meetings, which are informal in nature, is the singing of the old time gospel songs. It is anticipated that a larger number will be present at the Third church on Sunday afternoon.

## Meeting Monday Seen As Possible Hope For Break In Coal Strike

BULLETIN  
WASHINGTON, March 20.—(INS)—John L. Lewis today agreed to attend a government-sponsored peace parley Monday on the week-old coal strike but declared it was "preposterous" to assume the conference would succeed.

By PHILLIPS J. PECK  
(U. S. Staff Correspondent)

WASHINGTON, March 20.—The government today pinned its hopes for a break in the coal strike deadlock on a joint conference Monday between John L. Lewis and the soft coal operators.

As the walkout of 400,000 miners ended its first week, the union chief and eight of the industry's top representatives were summoned to negotiating session at the labor department.

The call to the Monday peace parley was issued by federal mediator director Cyrus S. Ching who conferred two days ago with Lewis and Ezra Van Horn, operators' trustee on the miners welfare fund.

Ching said "we want to explore this thing and see if any possible means can be found to settle the strike."

Delay Government Action  
It was assumed President Truman would delay invoking the national emergency provisions of the bill at 8 p. m. Monday.

## Five Bodies Are Found In Plane Near Somerset

Crash Occurs This Morning Near Laurel Hill Tunnel Of Turnpike

TWO WOMEN ARE AMONG VICTIMS (BULLETIN)

GREENSBURG, Pa., March 20.—(INS)—At least five persons were killed today when a two-motored ten-place plane crashed into a heavily wooded area near the Laurel Hill tunnel on the Pennsylvania Turnpike, in the Somerset vicinity.

State police identified the body of George A. Armitage, of 14 Redwing street, Providence, R. I., who was believed to be the pilot.

Two Women Killed  
Police said they had removed the bodies of two women and three men from the wreckage.

Cards found near the wreckage bore the names of Marvin Preston of Bethel, Conn., and Ruth Caroline Burlingame of 143 West Drusdale street, Wilmington, O., police reported.

Police said the plane was believed to have left Providence some time yesterday en route to St. Louis, Mo.

Though the plane exploded before crashing, there was no fire.

A farmer who saw the plane just before it crashed told police that a wing fell off just before the crash.

Rescuers found the wing a half mile from the wreckage on the east side of the mountain. The plane plummeted over the ridge of the hill and landed on the west side. Police were combing the area for the bodies of other possible victims.

Wing Fell Off  
The force of the crash dug a hole eight feet into the ground. Police had to hike a mile through thick undergrowth from the nearest road.

State police said the work of the searching party was hampered by the fact that the explosion scattered the plane and bodies over a wide area.

The license number of the plane was NC-22077.

A tunnel guard at Laurel Hill tunnel told police he saw the plane dive to the ground at 8:25 a. m.

## Senate Vote On Tax Cut Bill Is Set For Monday

WASHINGTON, Mar. 20.—(INS)—Sen. George (D) Ga., saw a possibility today that the House would stamp its approval on the Senate's 4.8 billion dollar tax cut without even the formality of a conference huddle.

The estimate of the veteran Democrat was supported by responsible Republicans who won an agreement for a final Senate vote after only five hours of debate. The Senate is now pegged down to vote on the bill at 8 p. m. Monday.

Expect House Approval  
George, ranking Democrat on the Senate Finance Committee, forecast:

"I'm sure the House will accept the Senate figure of four billion 800 million dollars. And I believe the House might take our bill without even going to conference."

The House bill called for an overall tax cut of 6.5 billion dollars, with reductions ranging from 10 to 30 per cent. The Senate version gives reductions in individual income rates ranging from 12.6 per cent on the lowest bracket to five percent on the highest.

Arthur Mometer

Do I detect disappointment in the face of my coal man friend, he surely knew that the honeymoon of eager buyers would end. He must have known that it couldn't go on, for his till is about to burst, and surely he in his wilder thoughts can't always expect the worst. But while it lasted the lad was good, and I might add collected the hay, but now he can stock for next winter's crop, weather's 68 today.

## Arabs And Jews In Bitter Battle

Heavy Casualties In Clash  
In Southern Jerusalem—  
Lasts Nine Hours

By BENN FELLER  
(U. S. Staff Correspondent)

JERUSALEM, March 20.—Arabs and Jews fought a fierce nine-hour battle in southern Jerusalem today, coincident with renewed tension over the United States decision to abandon support of the United Nations partition plan.

Spokesmen for both the Arabs and Jews opposed the American suggestion that the Holy Land be placed under a U. N. trusteeship. Heavy casualties were inflicted in the Jerusalem battle, one of the fiercest in the Holy City since the original U. N. plan for partition was announced Nov. 29.

A sharp battle broke out when Arabs, exulting by the U. S. abandonment of partition, launched a determined effort to sweep through the southern Jerusalem suburb of Mekor Hayim, a Jewish section.

Heavy machine-gun fire and mortar blasts converted the area into a battlefield. Casualties were still uncounted when the nine-hour battle ended this morning.

Wounded Arabs were carried in a stream into the hospital of the Arab village of Beit Safat, not far from the battle scene.

The bodies of many more Arabs, killed during the assault, were still lying on the rocks of the mountain-side the Jewish positions defending Mekor Hayim.

**Jewish Casualties Light**  
There were no early reports of Jewish casualties, and a Jewish participant in the battle said:

"Our casualties are of the lightest possible."

"Arabs tried to batter through our outer defenses. We held our fire till they approached and then let loose."

"We estimate they lost at least fifteen killed, and more than twenty wounded."

## U. S. SEEKING TO DROP PALESTINE PARTITION PLAN

(Continued from Page One)

U. N. Secretary General Trygve Lie for a special Palestine general assembly session over the expected opposition of Russia.

American sources admit that Soviet Delegate Andrei Gromyko on Wednesday afternoon will be in a position in the Security Council to veto the proposed temporary trusteeship of Palestine and the suggested suspension of the Palestine commission's consideration of the implementation of partition.

Gromyko can also force the council into a lengthy debate over the calling of a special assembly session. He can wield the double veto and obstruct any action by the 11-nation body.

**Veto-Proof Move Available**  
But in such a case the United States is ready to take the case entirely out of the Security Council and exercise the privilege of any member of requiring the secretary-general to poll the 57 countries in U. N. on a special session. On that basis the United States move is actually "veto-proof."

Present plans are for the American delegation to file a formal resolution with the Security Council chairman Monday embodying the points raised by U. S. Delegate Warren R. Austin in his dramatic abandonment of partition yesterday afternoon.

U. S. sources indicate that no blueprint has as yet been prepared for the assembly on the trusteeship plan. The length of time envisaged for such a control scheme in Palestine would depend on the speed with which the Jews and Arabs could be brought within the framework of a common solution.

In these authoritative circles, which indicate that the trusteeship decision was reached on the highest policy levels in Washington after consultations with Paris and London, it is felt that the Arabs and Jews may soon ask for a truce to enable them to negotiate a common understanding.

## MEETING MONDAY SEEN AS POSSIBLE COAL STRIKE HOPE

(Continued from Page One)

Taft-Hartley law in the coal case until after the mediation conference. However, Ching merely commented that "what the executive branch does is independent of the mediation service."

He acted after the mine owners had addressed a letter to Lewis asking him to order the men back to the pits and sit down with them to negotiate on the pension dispute which led to the walkout. The operators insisted that the strike would have to be terminated before they would discuss the controversy. Ching was asked whether he thought they would maintain this position Monday. He said:

"We won't know until we meet." Lewis was expected to ignore the proposal of the operators to end the walkout and then negotiate. It was believed, however, that he would attend the government conference since Ching attached no conditions.

At the same time, Van Horn may go into federal court to seek an interpretation on the pension deadlock. He and Lewis are split on the issue of who would be eligible for a pension.

3. Two hundred and 75 million dollars in military aid for Greece and Turkey — 200 million for Greece, 75 million for Turkey — supplementing the 400 million dollars voted last year.

**Before Committee Monday**  
The committee will go before the rules committee Monday to obtain clearance for its legislation on the House agenda. General debate will open Tuesday and continue through Thursday. Voting on amendment will begin the following Monday with passage March 30 or 31.

The measure then goes to a conference committee of the two houses where a speedy agreement on final legislation is anticipated. The completed bill may go to the White House two weeks before the crucial April 18 elections in Italy, where the Communists are making their next bid for power.

Some members felt that a Red victory in Italy might be the issue on which the White House has de-

cided to knock the chip off Russia's shoulder. But, they emphasized, they can't be sure about anything.

The decision to recall Marshall and Forrestal was reached at a heated committee "gripe session" Friday.

Both Democrats and Republicans, it was learned, were annoyed by the lack of any detailed information offered by the two cabinet leaders, particularly Forrestal, in open hearings.

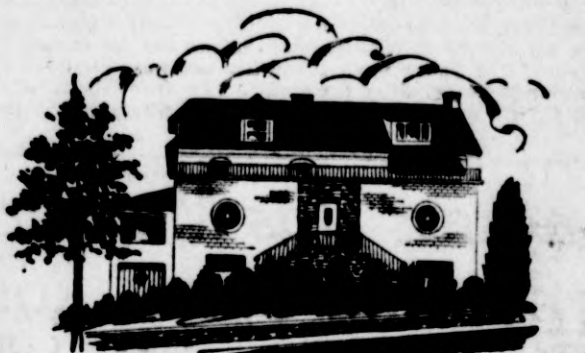

The committee has postponed any decision on universal military training and the draft until it can find out whether the international situation confronting the nation is a long-range or short-range problem.

## Interpreting French Movies

**By PAUL GALICCO**

---

A lot of French moving pictures are unwinding on our screens these days, and to aid you in understanding what goes on when a lot of strange-looking people start running around and hollering at one another in a foreign language, I have prepared this condensed version of Gallico's Gallie Guide, or How To Look At French Movies.

For instance, there is the character of the father, or "Pa-PAH!" as he is called in the French screames. He is usually a little bald-headed guy with a mustache and when he lets out a bellow all the kids and the women folk stand to attention or run and hide in corners or start bringing him things. He is always raising Ned about something and getting a lot of attention, and when he is in a particular tantrum over something or other in the story you can usually count on Mother, or "Ma-MAW!" as she is called, giving out with the water-works, beating her breast and kowtowing to him in the hope of cooling him off.

**Confusing To U. S. Audiences**

This is sometimes confusing to American audiences who are used to seeing father depicted, and Paul does a good deal of truth, as a mouse who only has to let out one note to have the whole family climbing over him, and that's his voice, Mother slugs him with the nearest object, and that's that.

and he never lets the family forget to let a mother know steps around him on tip-toes, and if the kids speak out of turn they catch it. Also, when there is trouble, it is the Old Man and not Mama who

takes over and she whines and does a lot of hollering, and the more she hollers and stamps and tears his hair and throws things, the happier Ma-Maw is even though she is howling, because that's how she knows that Pa-PAH still loves her and the kids—anyway, in France.

You will not have very much trouble spotting the heroine of a French picture, because our Gallic cousins believe with us that nobody wants to sit in the dark for an hour and forty-five minutes watching an old crow, and when, shortly after the opening titles have been unwound a filly prances across the screen who practically shakes you loose from your seat, and who for looks, eyes, curves, expression and sex appeal makes the average Hollywood doll look like a girl in a high school charade. THAT'S the heroine. She's the one who is going to get into an awful lot of trouble shortly, because while she loves Jean, her father is forcing her to marry Pierre, which causes her to run away with Philippe, until years later, when she and her illegitimate child by Victor, are abandoned by Antoine and . . . Lut

**Identifying Hero Is Task**

Identifying the hero is something else again. It's a cinch in American movies. You know the guy and the gal who are being paid the most money in the picture and they're the ones who will get married in the end. No trouble. But not in France. Maybe the guy who is getting the biggest salary is a little fat guy by the name of Raimu who is playing the part of somebody's uncle from Marseilles, and after taking one look at him you know that HE isn't going to get

So you look around a bit at the other guys in the picture, and now you really get confused, because maybe one looks like a gigolo, and the next one like a barber, and third like the town sissy, and none of them look like Clark Gable, or Humphrey Bogart, or Cary Grant, but that's all there are in the picture, and you know that one of them is going to wind up with the gorgeous big-eyed doll who has been swiveling her hips through reels one and two.

### Just Another Difference

Well, that's just another difference between looking at French movies and our own. If it's in French, you just pick out the guy with the waviest hair, the longest neck, the biggest Adam's apple and the saddest eyes; the one who looks as though he would bust out crying from a harsh word and fall down from the effects of a severe tap on the wrist, and THAT'S the hero. Muscles don't mean anything in French movies. The gal is going to go for the walking skeleton with the Spaniel eyes. Apparently it makes for better all-around suffering.

There are probably a lot of fake French pictures on the market, but you can tell either way: you are seeing a genuine one if pretty soon someone who oughtn't to have a wavy hair wags it. In France, that is their idea of a lot of trouble (just for the record, I ain't considered too good over here, either) and brings out the most and the best kind of suffering in everyone.

Alphonse, wed to Celeste, goes on a walking tour where he falls in love with the beautiful Marie whose wicked Uncle Auguste is in the toils of an adventures. Marthe, who in turn is loved by Jacques, the husband of Louise, who is carrying on an affair with Armande, who is promised to Giselle. When Celeste, Marie, Marthe, Louise, Giselle and unidentified chambermaid are all found to be with child, Alphonse suffers a nervous breakdown. He says it is not his fault. When the picture is over, the misunderstanding is cleared up. The picture is over.

Two were sentenced for driving while under the influence of intoxicating liquor. Mark Elmer Nugent and Joseph Belo were each sentenced to pay a fine of \$100 and costs and undergo imprisonment in the Lawrence county jail for 30 days. Out in three days if the fine and costs are paid.

Donald Fleegeer, plea to indecent exposure, fined \$1 and costs and 90 days in the Allegheny county workhouse.

P. A. O'Malley, plea to aggravated assault and battery, fined \$1 and costs and 60 days to the county jail.

John Dukas, morals charge. Lying-in expenses of \$200 and four dollars per week.

## SURETY OF PEACE

Charging that Randall Shaffer had threatened and that he feared bodily harm, Ernest C. Fork of 105 Quest street was heard in his surety of the peace charge on Friday. The two men live in the same apartment building. Fork charges Shaffer with having made threats to harm him. From the testimony it appeared to be a disagreement between the two families.

## ANCIENT DEED

In the recent transfer of property in Wilmington township from Joseph B. Elder to Eli-J. Mast, an historic deed figured in the transaction. The original deed, which is now in Mr. Mast's possession, was from the Supreme Executive Council of the Commonwealth of Pennsylvania, patented to Henry Walker on May 13, 1789. At that time the property was located in Allegheny county.

Later a transfer was made and this time it was located in Mercer

county, Mercer having been made out of a piece of Allegheny, as was Beaver. Still later a transfer was recorded, this time in Lawrence county, this county having been made from pieces of Mercer and Beaver counties.

The property was in the Elder family for nearly a century. On March 27, 1854, it was decided to one of the early Elders and had remained in the family until the transfer to Mr. Mast.

When it was originally patented to Henry Walker, this area was populated by many Indians. A few white settlers had come out following the Revolutionary war but there were no cities, merely trading posts here and there. This was nine years before John Carlisle Stewart settled in what is now New Castle.

Europe in behalf of minorities, racial, national, or religious, which have dismally failed. We are witnessing now in India the perversion of "independence" in bitter religious warfare—the most sanguinary warfare known in the history of mankind.

The great omission of political reformers, not only in India, but in many other instances, is their failure to recognize that self-government implies self-abnegation and self-restraint. Extension of self-government to India, as the record indicates, was the granting of license to civil combat. India and Palestine will have to fight it out.

apostle of peace. That is the chief basis of his appeal for votes. Yet, by providing the Communists with justification for such power grabs as the one that occurred in Prague, he is probably contributing as much as any single individual toward making war with Russia inevitable.

The charitable assumption is that Wallace is blinded, either by his own emotions of ambition and revenge or by the Communist delusion. But to follow him, even in a vote of protest, one must also be blind and deaf and dumb.

## FISH IS GOOD PROTEIN FOOD FOR FAMILY MEALS

Fish for Lenten meals is not a new idea but there are many new and different ways to prepare and serve this traditional food. With the variety of fish on the market, it is easy for homemakers to find the kind they want.

Serving fish is not limited to the Lenten season but may be served any time during the year instead of meat. Fish is an excellent protein food. It also contains many minerals and vitamins, and salt water fish is rich in iodine. Vitamins A and D and some of the B vitamins are found in fish.

Fish is easy and quick to cook. Cook fish only until it is tender or until it flakes from the bone when tested with a fork. Over-cooking causes fish to become tough and lose its popularity with the family.

When buying fresh fish, look for scales that are moist and cling to the fish. A fresh, tangy odor is characteristic of fresh fish. If using frozen fish, use it as soon as it is thawed and never refreeze it. Fish often is cheaper than meat so may be used to help keep food costs down.

Here is a suggestion for a different way to serve fillets of fish. Spread fillets with a rich filling of bread crumbs, onion, parsley, and chopped celery, seasoned with salt and pepper. Roll up and fasten with toothpicks. Put on a greased pan and bake in a moderate oven (375 to 400° F.) 35 to 45 minutes. If you wish, you can put this filling between two fillets, fasten with toothpicks, brush with melted fat or put strips of bacon on top, and bake about an hour in a moderate oven.

Other ways to serve fish include casserole dishes, chowders, omelets, salads, and souffles. Vary the way you serve fish and it will always appeal to the family.

Will Present New  
Air Map Of State

HARRISBURG, March 20.—A revised aeronautical map of this state, now being prepared by the Pennsylvania Aeronautics Commission of the State Department of Commerce, will show a considerable number of commercial airports that have been licensed since the publication of the original chart of 1947.

It is hoped to have the revised chart available for distribution sometime in April, the Aeronautics Commission announced today. The chart will be obtainable from the Department of Property and Supplies, Harrisburg, for 50 cents a copy.

Aeronautics authorities throughout the country have said that the Pennsylvania 1947 chart is the best of its kind in existence.

## WHEN STAYING IN A LARGE HOTEL

"I find it necessary to go to a strange city and stay at a hotel for about ten days. Since I am going to a large city from a small town, I should like some pointers to put me at ease during my stay . . . how to make a reservation . . . what to do upon arrival . . . how to dress for the dining room . . . and what procedure to go through when I leave, etc., etc."

Answer: Either write or telegraph in advance for a reservation stating the hour of your arrival, number of persons in your party, accommodations required, approximately how long you will stay.

The doorman (if it is a large hotel) will carry your luggage into the lobby where a bellboy will take care of until its arrival in your room. You should register "Miss Helen Brown" or "Mrs. John Smith." The room clerk will give you your key to the bellboy who will open your door, deposit your luggage and raise your windows, if you wish them opened, after which you should give him twenty-five cents for one bag, thirty-five cents for two.

For dinner in a large metropolitan hotel, you should wear street-length clothes and a hat, unless you intend to go later to some place requiring evening clothes. It is neither necessary nor advisable to wear evening clothes merely for dinner in the hotel, unless you will dine with others who will wear evening clothes, preparatory to some after-dinner formality. If you would like breakfast in your bedroom, call "room service" and give your order, wearing a housecoat or negligee to admit the waiter. The waiter will bring you a check for your breakfast which you must either pay or sign. In the latter case, it will be added to your bill. Tip the waiter at least twenty-five cents in either case. Give the clerk about an hour's time to compute your charges. When you are ready to check out, call the desk and have a porter or bellboy send up for your luggage. Another twenty-five cents should be given for this service. Pay your bill at the cashier's window on your way out.

Present your problems to Miss Markel who will promptly mail personal replies to questions from readers enclosing stamped, self-addressed envelopes.

Horse Has Low 'IQ'  
On Animal Exam

CHICAGO—(INS)—Horses are the dumbest animals, but not so dumb as the people who bet on them.

That conclusion was reached recently by Prof. C. J. Warden of Columbia university.

Prof. Warden conducted a series of intelligence tests among ten animals. The tests revealed that Old Dobbin is low man on the I.Q. totem pole.

The findings, which appear in the recently published World Book Encyclopedia, list the chimpanzee as the animal kingdom's most intelligent beast.

Animal quiz kids, after the chimp, are rated in the following order: orangutan, gorilla, monkey, dog, cat, raccoon, elephant, pig and horse.

Dr. Warden refused to comment further about the people who lose millions of dollars yearly betting on "glue pots."

Piano Concert In  
Youngstown Hall

Viennabell Prioletti Plays For  
Audiences in Latin Culture  
Foundation Hall

A number of local people attended the piano concert given by Viennabell Prioletti, 14-year-old daughter of Dr. and Mrs. Vincent Prioletti, of South Mill street, in Youngstown, on two successive days recently. The concert was sponsored by the Latin Culture Foundation of Youngstown and was given in its beautiful home on Wick avenue. Her first performance was Saturday evening and her second on Sunday afternoon. She is a student at the Youngstown School of Music.

Commenting on her Saturday evening performance, Col. L. E. Boles, Youngstown music critic, said that the young pianist disclosed a rather amazing talent and a facile and brilliant technique used with considerable musical understanding with keen feeling for phrase and expression.

Her selections included Bach's Prelude in B flat, Chopin's Fantasia Impromptu, Liszt's Tarentelle, and with Miss Phyllis Galose, of Youngstown, playing the orchestra part on another piano, Mendelssohn's Piano Concerto in G minor.

Lower Standards  
Spurring Navy's  
Enlistment Drive

Chief Machinist's Mate S. E. Bond announces that during the first half of March, 21 young men have taken advantage of the U. S. Navy's new lower physical requirements and have enlisted in the naval services through New Castle and its branch stations.

Requirements are: condition of an applicant's teeth is no longer disqualifying. The only requirement in this respect is that the applicant have a pair of healthy jaws covered by gums not grossly infected. Malocclusion, lack of occlusion, overbite, underbite, incision is to be totally disregarded in considering an applicant's fitness. Chief Bond adds that prior to this directive approximately 90% of navy recruits had been dental deficiences.

The local navy recruiting station is located in the Post Office building and is open from 8 a. m. to 4:30 p. m. Mondays through Saturdays.

France Still Claims  
Many 'Millionaires'

PARIS—(INS)—France has at least 215 thousand "millionaires." But—and it's a big "but"—at current exchange rates one million francs translates into about \$3,330. However, in France the sum in francs will buy considerably more than its dollar equivalent in the United States.

The figure came to light as a result of the government's withdrawal of 5,000 franc notes. The statistics showed that at the time of the withdrawal, 215,000 persons were holding in cash at least 200 of the large bills.

As to how many more "millionaires" had their money in banks at the time of the recall, or still have it in gold, securities or capital investments, there is no certain way of knowing.

## BEHAVIOR

Posture and gait and appearance indicate pretty clearly conditions of the body.

Behavior indicates conditions of the mind. If a boy has pain in his arm and is unable to move it, examination will probably find a broken bone.

If a man shows a sudden change in his disposition or behavior, examination will probably find a mental disease. A person who has always been quiet and reserved suddenly becomes loud and talkative. One who has always been economical or stingy begins to squander his money. One who has been humble and meek calls himself a millionaire or Napoleon.

All of these signs indicate that there may be some trouble in the mind.

Prompt examination of persons who show a sudden change of behavior may help to prevent further trouble.

## Two More Weeks Of County Campaign

Pre-Easter Increase Campaign Is Nearing Close: Expect Record Attendance

Palm Sunday tomorrow, then Easter Sunday, and the eight weeks pre-Easter increase campaign being sponsored by the Lawrence County Sabbath School Association in which 75 Sunday schools are enrolled, will come to a successful conclusion. The four challenging goals of increase in evangelism, Sunday school attendance, church attendance and Bible study have received good emphasis, and encouraging results have followed.

For a number of years Sunday school attendance was pretty generally in the city, county and state, as well as the country as a whole, on the decline. For the past two or three years the Sunday schools have been just about holding their own with a very slight increase. In this year's campaign, while a number of Sunday schools are registering splendid increases, the Sunday schools as a whole in Lawrence county will probably show only a moderate increase. However, almost without exception, the highest attendance average for the entire year has been the average attendance of the eight weeks before Easter when a special effort is being made.

## Palm Sunday To Be Observed Here Tomorrow

Blessing Of Palms, Distribution Begins Holy Week in Local Catholic Churches

Sunday, March 21, is Palm Sunday, to be observed by Catholics throughout the world.

Local observance will be held in all of the Catholic churches of the city, with the blessing and distribution of the palms.

Brief ceremonies will be conducted preceding the Sunday masses, during which time the

palms will be blessed. They will be distributed during the masses. This observance of the third Palm Sunday following the end of World War II finds the world still unsettled, with conflicts still existing, the struggle for a lasting peace yet to be achieved. Towards this goal devout will offer their prayers on Sunday in the hope of attaining peace and good will among all nations.

## THAT TRUCK DRIVER AHEAD WANTS YOU TO BE SAFE

It's a minor annoyance sometimes to get caught on a hill back of a truck. But it's only temporary and remember this, the man driving the truck is as much interested in safety as are you.

The truck driver is a responsible citizen, he has to be, for in his truck may be a cargo valued at thousands of dollars. He is probably a family man, and on top of all that he doesn't want to have an accident any more than you.

That driver is your friend. When it is safe to pass, nine times out of ten he will signal you ahead. But for safety's sake, don't pass until he does. The truck driver is your friend.

## See Collapse Of Four Power Body In Trieste Move

LAKE SUCCESS, N. Y., March 20.—(INS)—The dramatic decision by France, Britain and the United States to return Trieste to Italy today spells the collapse of the council for foreign ministers.

The doom of this four-power body was foreshadowed some months ago when the London council of foreign ministers meeting failed completely to agree on the preliminary conditions for a German peace treaty.

In the minds of some observers at Lake Success, the move on Trieste may also be the possible forerunner of complete invalidating of the Italian peace treaty and of treaties with the satellite nations.

The obvious motive of the three powers is to oust Soviet Russia from western Europe in line with the current battle against communist expansion.

It is also believed that the return of Trieste to Italy will blast all chances of a communist victory in the forthcoming Italian elections.

for feeding 800 persons daily also was provided.

## Train Service Cuts Ordered

Government Order Cuts Ser-  
vice On Rail Lines Enter-  
ing New Castle

### SCHEDULES CHANGE AT 12:01 A.M. MONDAY

Railroads servicing New Castle today issued their lists of passenger run cancellations, which will go into effect at 12:01 a. m. Monday in compliance with the Office of Defense Transportation's general order 69 to conserve coal during the current crisis. The order is aimed to reduce steam passenger locomotive mileage by 25 per cent.

**Pennsylvania System**  
The Pennsylvania system, through the E. and A. division office here, stated that they will take off two trains, the Pittsburgh to Erie run (415), and the return train, 414. The former arrives in New Castle at 9:10 a. m. and arrives in Erie at 12:10 p. m. Number 414 arrives in New Castle at 7:33 p. m. and pulls into Pittsburgh at 8:55 p. m.

**P. & L. E. System**  
The Pittsburgh and Lake Erie system will lop off nine trains. They are 43, Pittsburgh to Youngstown; 5, Pittsburgh to New York; 30, Youngstown to Pittsburgh; 10, N. Y. central junction to Pittsburgh; 29, 27, 41, 4 and 12 between College and Pittsburgh, and 47, 46 and 39, College and Youngstown.

Lines operating with Diesel and electric trains will not be affected by the curtailment, it was announced.

**B. & O. System**  
Terminal Trainmaster S. A. O'Neill announced today that two express trains on the B. & O. will be removed until the coal strike is settled. These are trains No. 40 and 31.

The B. & O. will be least affected by the curtailment order, even though they operate a large number of trains through here on their mainline between the east and west, due to the fact that most of their trains are hauled by diesel locomotives.

(Thirty-sixth of a Series)

WARD MCALLISTER

New Castle's "North Hill" district has been deprived of one of its best-loved and best-known merchants with the forced retirement of Ward McAllister, for 18 years the proprietor of a popular confectionery and stationery store at 1704 Highland avenue. Mr. McAllister, who relinquished his business in June, 1947, due to failing health, endeared himself to a great number of Second Ward folk during his tenure as storekeeper and his retirement has left a void among the merchants of this section of our community. Born in Mannheim, N. Y., October 1, 1868, Mr. McAllister spent his boyhood and early youth in the Empire state and married the former Laura Tucker there on September 21, 1888. He came to New Castle in July of 1921 and pursued his vocation as a skilled piano finisher, working with the Frew company for a number of years. He had previously held positions with firms in New York City and Dayton, O. Mr. and Mrs. McAllister opened their store here August 12, 1929. "A very inopportune time," they added, "since that was the year of the stock market crash." Until illness kept him confined, the former merchant was an active member of the Masons and the New Castle Consistory. Ward McAllister's outlook on life is bright, despite sickness which has virtually stopped all his outside activities. Since his affliction has impaired his eyesight, one of Mr. McAllister's chief relaxations is listening to his wife read to him, and he is an avid devourer of the printed word. Together they have finished the perusal of many books and periodicals. The McAllisters live at 409 E. Leasure avenue. They have no children.

## Around Hollywood

By JOHN TODD  
International News Service Staff Correspondent

**HOLLYWOOD, March 20—(INS)**—Conrad Nagel, who made female hearts thump like runaway trippies, is making a movie comeback. The former matinee idol figures it's nice work—even if he did get it. He walked on the set of Monogram's "Stage Struck" today and found himself immediately surrounded by three luscious young lovelies of the screen. All blondes. Audrey Long, Wanda McKay and Jacqueline Thomas. "What?" demanded the debonair actor. "No redheads? This certainly isn't a drab way to make a living, if you don't mind me saying so." No one minded him saying so. But anyone who knows Conrad Nagel also knows his life never has been dull. For the past five years he has been concentrating his talents on the Broadway stage. With regular radio programs sandwiched in between the headliner plays. Tonight they will be dishing out those little golden Oscars at the academy award shindig. Nagel had plenty to say about that. He should. As a former president of the Academy of Motion Picture Arts and Sciences, he was one of a three-man committee that instituted the original awards back in 1927. Nagel opined: "After a lot of preliminary discussion over the early years, the academy thing is perfect now. It is well-managed—but it always will be controversial. Even the Pulitzer and Nobel awards always draw criticism from some quarters. Founded Relief Fund. Nagel was responsible for establishing the motion picture relief fund decades ago. Through his efforts studio workers now donate one-tenth of one per cent of their salary to help down-and-outers in the movie business. Hollywood is welcoming Nagel back after the long lay-off. And the actor remarked: "It is not at all difficult to come back home." Who could disagree—ganderizing the three blondes beside him on the set.

# High Winds Hit Power Service

Extremely high winds last night caused interruptions of electric power to various places in the New Castle area, according to officials of the Pennsylvania Power company.

Power was off for two hours in parts of Walpole, off two hours in the New Bedford district, the street lights were out at Koppel and Enon Valley and there was an interruption at Leesburg.

The interruptions were caused by wires being blown down. Four poles were felled and two trees. Fortunately, because of the tree clearing campaign of the company other possible outages were prevented, the officials reported today.

## Rabbi J. Lipshutz Is Speaker Here

Brotherhood Topic Given At Tifereth Israel Synagogue Sabbath Services

Speaking on the subject, "Brotherhood of Modern Civilization," Rabbi Jules Lipshutz, of Newport, R. I., visiting spiritual leader, delivered a timely message Friday evening at the late Sabbath services at Tifereth Israel synagogue. Approximately 150 members were in attendance.

Rabbi Lipshutz is the leader of the Congregation Jeshua Israel synagogue in Newport, R. I., the first synagogue, and which is now a national shrine. He was introduced by Samuel Schwartz, chairman of the Rabbinical committee.

This week-end visit in New Castle is the second visit here for Rabbi and Mrs. Lipshutz. This evening board members of Tifereth Israel synagogue and Rabbi and Mrs. Lipshutz will be guests at the residence of Dr. and Mrs. Nathan Ginsburg, 320 East Sheridan avenue.

On Sunday afternoon Rabbi and Mrs. Lipshutz will attend the Tifereth Israel Purim play; and Sunday evening will attend the 25th anniversary donor dinner of the New Castle Chapter of Hadassah.

Last evening, an informal reception followed the delivering of the address, and the "Oneg Shabbat" was held with the Tifereth Israel Sisterhood in charge of the evening's arrangements. Refreshments were served buffet style, the table being attractively arranged for the special occasion.

Commander-in-Chief Ill. Welty O. Rugh, 33, and the officers of the Valley of New Castle Consistory, A. A. S. R., were honored by the Legion of Honor at the annual dinner in The Cathedral Friday evening.

Following the dinner, which was prepared and served by members of the Legion of Honor, the officers were introduced, and brief remarks were made by Commander-in-Chief Rugh, Past Commander-in-Chief John E. White, and Harry L. McFeaters, commander of the Legion of Honor.

The speaker of the evening was E. Miller Smith, engineer with the S. J. Groves and Sons Co., who was in charge of the construction on Route 422, west of the city, and who served as a captain in the engineering corps which built the Lodo road from India into China during the late war.

Mr. Smith gave an interesting account of this work, and of conditions in India, which are back of the unrest recently observed there.

Mr. Smith and wife are leaving next week for Scranton, Pa., where he will have charge of another large road contract for the Groves company. They have spent the past two years here.

### Line Inspectors Now Using Helicopters

OAKLAND, Calif.—(INS)—The helicopter has moved into another field of operations—replacing skis and snowshoes formerly used by linemen who patrolled utilities installations in northern California's rugged Sierra Nevada mountains.

The Pacific Gas and Electric company—largest utility company in northern California—announced the signing of a contract with a helicopter firm for inspection of transmission lines.

**Lines Require Attention**

The lines require constant inspection especially in winter when ice and snow and the hazard of falling trees may cause breaks.

It was decided that helicopters with their ability to hover over a given spot could do the inspection job far more quickly and efficiently than linemen traveling on skis and snowshoes.

## Burgnon Speaks At Meeting Here

**Chief Field Accountant Of State Employment Service Talks To Personnel Association**

Western Pennsylvania Personnel Association held its regular monthly meeting Friday night at the Castleton Hotel at which time George H. Gettings, manager of the local Pennsylvania State Employment Service presented L. G. Burgnon, chief field accountant of the Pennsylvania Bureau of Employment and Unemployment Compensation at Harrisburg, who spoke on the subject of "Merit Rating."

Mr. Burgnon stated that the objective of "merit rating" is to stabilize employment and the shifting of the major portion of the cost of unemployment upon those establishments wherein most unemployment or labor turnover occurs. Merit Rating plans provide for differentials applicable to the contribution rates payable by employers to State Unemployment Compensation Funds, and that rates are based generally on turnover of employment within the employer's business in a designated preceding period, with the employer having low turnover paying a low contribution rate and the employer with high turnover paying a high contribution rate.

**Some Advantages**

Specifically, he said, employers under Pennsylvania's Merit Rating plan may find it advantageous to:

1. Avoid layoffs, so far as possible, at times most disadvantageously affecting contribution rates.
2. Give preference to former employees in hiring.
3. Avoid, so far as possible, employment of workers for short periods with consequent high annual turnover.
4. Endeavor to determine whether layoffs or retention of employees in certain periods would—if retention be possible—be more advantageous from a final cost standpoint.

He stated that many employers through neglect are not attempting to reduce their unemployment costs, and that when notices of all charges of compensated employees' wages are received by an employer they be checked and those charges which are believed to be improper should be contested.

The rate determination by the department is conclusive and binding upon an employer unless, within thirty days after the mailing of the notice to the employer, he files an application for review and redetermination, setting forth the reason therefor, which application the department can deny or consider in public hearing.

Also heard at the meeting was R. P. Sullenberger, the Commonwealth's representative in this area and assistant to Mr. Burgnon.

Two new members were announced by President Dudley Arnold, the Valley Manufacturing Company and Universal Fittings and Scaffolding Company, which were represented by Jack Velker and Paul Cronin, respectively.

Next month's speaker will be M. C. Jucius, a member of the faculty of the College of Commerce and Administration of Ohio State University, who will discuss personnel problems and administration.

Great Britain acquired the Island of Bombay from the Portuguese in 1661.

## Minister Confident World All Right

GREENCASTLE, Ind.—(INS)—An 87-year-old man who thinks the world is getting better instead of worse is an optimistic character from those who predict civilization's end in our present international situation.

However, the Rev. Walter Scott Rader, retired Methodist minister, of Greencastle, firmly believes the world is going to "wind up in good shape."

He said recently:

"While we hear so much about communism, I don't see how such a government can continue when it's theory is based on anti-God. But time alone will tell that you can't go ahead without believing in a superior being."

## Yanks Strengthened For Title Defense

SOUCHOK... strength at first?

MILLER... he could be it.

Improved pitching plus their legendary power will make it tough for the other American league clubs to dislodge the New York Yankees from the top spot this year.

Ed Lopat, acquired from the White Sox, bolsters the mound staff considerably. The pitcher copped 16 for a sixth-place club in 1947. Frank Miller is one of the brighter rookie flingers, winning 15 for Kansas City last season. Steve Souchock, six foot, three inch newcomer up from Kansas City, is a red-hot applicant for the first base job. He hit .394 last year and swings from the right side.

## Field Of 16 Quintets Await Launching Of City-County Tournament On Monday

Basketball in Lawrence county is slated to make its fade-out with a grand and glorious finish. What might be termed the "semi-finals" of the season will begin at George Washington high floor Monday night when the Optimist club opens its senior tourney. Following these games will be the Y. M. C. A.'s junior matches at the "Y" court starting April 5.

Enthusiasm on the part of the city-county entries is running high and each quintet thinks it is the one that will step up and take the trophy when the firing ceases April 2 with the championship encounter.

The Optimists feel that this year should be the greatest in the history of the classic. No "super" teams are the hope and an even distribution of strength should make for some crackling ball games. The best cage talent in the county has been rounded up for the games and the fans will be treated to fast and exciting battles from start to finish.

Three Tills Monday

The lid will blow off with three games Monday night. At 7:15 the

Morella Dairy Bar will tangle with the classy Bessemer Legion. At 8:15 it will be the Universal Pottery versus Gus "Big Five"—an even match—and the finale of the night pits the powerful New Castle Elks against the Plaingrove Alumni.

## PRACTICE BALLS MUST BE FURNISHED

Although the Optimist club will supply new basketballs to be used in the actual games, practice balls must be furnished by the individual teams competing. It was announced today by Joseph Daugherty, general chairman of the city-county tournament.

The latter team, with many stars of the strong 1946-47 high school machine, will be no push-over for the Paul Morrison machine. It is reported.

Action in the first round will continue Wednesday night with DeCarbos against the Kelly Five, American Legion and the New Cas-

le Eagles, and the East Brook Boosters meeting V. F. W. Post 315.

## Handsome Prizes

A dazzling array of prizes, ranging from the championship cup down to individual medals and awards for performance, will give the teams something to shoot for. Players scoring the most points over the entire tourney, most in one game, and most fouls, will be given appropriate awards.

Admission price for the games will be 50 cents with no seats reserved. Proceeds above the expenses to be met will be used by the Optimists to further their boys' work projects in the city.

## Would Close Trout Streams

Sportsman's Council Favors Law Which Would Make Fishing Illegal

When the Sportsman's Council met at the Ellwood City-Warrenton Rod and Gun club, a resolution was adopted asking for a split season for migratory water fowl and also one which would include woodcock season extending into the first week of the small game season.

The sportsmen also passed a resolution in favor of a proposed law to close all streams stocked with trout to all fishing from the date of stocking to the opening of the trout season.

Fifty-three attended the meeting, during which the Oakland Sportsman's club affiliated with the council.

Mercer county fox and coon hunters invited the sportsmen to attend their field trial at the club grounds tomorrow.

Experimental Project

A motion which passed directed the sportsman's secretary to communicate with our congressmen, suggesting that the Warren county fish hatchery be retained for trout.

Game Protector Samuel Shade reported he had released 446 pheasants in Lawrence county.

Fish Protector Clinton White stated four truckloads of fish would be received and stocked at Elliott's Mills at 3:30 p. m. March 26.

Robert Lickenberger, supervisor of the food management of the department of game, gave a talk on his work and said game lands 151 (Plaingrove), has been selected as an experimental project of division F.

## WILL MEET SUNDAY

Tempy's Beach softball team will have a meeting Sunday at 2:30 o'clock at 369 East Washington street for all players for the coming season. The team will be coached by the veteran Pat DeMarco, and Tempy. Measurements will be taken for uniforms. Tempy's Beach will be out to win the softball championship this year.

## Savold KO's Buonvino In First

## 'Ancient' Lee Levels Italian In Record Time

Subbing For Joe Baksi, Savold Flattens Gino In 54 Quick Seconds

By BILL CORUM  
(International News Service Sports Writer)

NEW YORK, March 20.—Walter Pitkin may have been right about life beginning at forty, although I haven't found it that way, and am well past post. Could be, my one time professor at Columbia was trying to kid himself and the rest of us gaffers. Still, it was a nice try, not to mention being quite profitable to the author.

What looks to be more easily proved these days is that prize-fighters begin at thirty.

Last night in the shortest main event on record in the M. S. Garden ring—54 seconds—Gino Buonvino, of Bari, Italy, found out that there is an ancient Lee around here who hits like Grant.

Lee Savold, 32, out of the twin cities and, more recently, Paterson, N. J., stood the portly signor on his head with a withering right-cross that didn't travel much farther than from here—to here.

The punch appeared to land high on the jaw, or cheek. But after salaaming so completely that his forehead hit the floor and then collapsing by degrees as the crowd progressed the stunned Gino stayed there until he helped back to the horizontal by his seconds.

It was then seen that he had a bloody nose and also, no doubt, he was hearing a whole orchestra of those sweet Italian guitars. Oh Cara Mia, Gino was well bowled all right. And well bowled over. It was his first setback in eleven starts in this country, where he plainly has beaten well if not wisely.

Oldsters Shine

Thus, in recent weeks we have seen Savold at 32, Marcel Cerdan, a repeater on that number, the 33-year old Gus Lesnevich and the 34-year old Joe Walcott give surprising accounts of themselves in the same ring.

Age, apparently, cannot wither the punch that paralyzes. Wonder who Jack Dempsey's next opponent will be?

Another thing that seems to insure success for a heavyweight is to substitute for Joe Baksi, the jumb barely walking around man. Walcott got Louis when Baksi wouldn't take the match.

Lee Oma filled in for an injured Baksi against Tami Mauriello and went on to five exceedingly profitable major bouts.

Now Savold subs for "Kulmont Joe" and hits the jackpot. Or, at any rate, he hit Gino.

"Curlylocks Lee" is old, but he's a workman inside those robes when he wants to be. We felt before the fight that Buonvino hadn't met anybody of Lee's class—at his best, that is—before.

Around here, Savold is either slightly terrific, or little short of terrible. But you can't say that he doesn't know how. He does.

## Russ Will Not Battle Biddle

Because Russell Baxter, local middleweight, signed to fight a semi-windup at Ellwood City, March 30, Tommy Leach, matchmaker of the Jefferson A. C. today removed him from his April 14 docket. Baxter was to have fought Jack Biddle of this city in the main eight round bout.

Leach is now scanning the flistic horizon to find an opponent for Biddle. An offer will be made to Mike Berkovich of Niles, now managed by Jimmie Dunn, who knocked out Baxter.

## Caldararo Heads Hillsville Team

"Lippy" Caldararo, center fielder, will manage Hillsville, in the Lawrence County Baseball league this season, according to announcement today. In accepting the management of the club, Caldararo said "the other teams in the loop will have to watch out for Hillsville, because we're pennant-bent this year."

## Savages, Shines Notch Victories

The Savages walloped the Shamrocks, 48-34, and the G. I. Shines ran roughshod over the Eagle Juniors, 45-22 in House League games played at the Y.M.C.A. last night.

Spears with 16, was high for the Savages while Shelton meshed 18 for the Shines.

## Briefs From Major Camps

(By International News Service)

The phenomenon that the New York Yankees needed a home run by a pitcher to win a ball game yesterday calls attention to the fact that Joe DiMaggio, the big gunner of the world's champions, is not hitting very impressively this spring.

Jolting Joe has collected only two hits in 21 times at bat in exhibition games to date. That is a percentage of less than 100. The Yankee Clipper went homeless yesterday when his mates nosed out the Boston Red Sox, 6 to 3, with a ninth-inning, five-run rally climaxed by Pitcher Randy Gumpert's three-run homer after two men were out.

The Yanks took a 2-1 lead in their keenly contested series with the team managed by Joe McCarthy, their former pilot, and also won their ninth game in 11 starts.

Bucky Walters, the Reds' grand old veteran pitcher, was credited with Cincinnati's 5 to 2 victory over Detroit.

The St. Louis Cardinals, sparked by Stan Musial's two-run homer, beat the Phillies, 12 to 8.

The Boston Braves trounced Washington, 8 to 6, and the Toronto International league team nosed out the Philadelphia Athletics, 3 to 2.

## Boosters Club Lay Groundwork For Big Banquet

Set Wednesday April 21 Date For Testimonial To New Castle Team Of Mid-Atlantic

Several members of the New Castle Boosters club met in the Castleton Hotel last evening and laid the groundwork for a gigantic testimonial banquet to be held here for the New Castle team of the Mid-Atlantic league. Richard E. Rentz, president of the Boosters, conducted the meeting.

After a short discussion by the members it was decided to go ahead with the plans. The date of Wednesday April 21 was set, the dinner to start at 7 o'clock.

The dinner will be held at the Cathedral, it was announced.

May Get Chandler

A two-member committee—William Usselson and Arwood Eckles was named by Rentz to make the banquet arrangements. Robert Mills was appointed to handle the ticket sales, and J. Preston Flaherty was appointed to contact a nationally known speaker for the occasion. It is believed an effort will be made to have Commissioner of Baseball "Happy" Chandler here for the testimonial.

Another meeting of the Boosters has been set for 8 o'clock Monday night at the Castleton, at which time the committee named last night can report back. It behooves every member of the Boosters to make an effort to attend the Monday meeting. Owing to the weather last night not too many showed up.

## County To Take Part

The banquet will not be confined to New Castle alone, the whole of Lawrence County being invited to take part. Tickets will be sold everywhere in the city and county. This is a worthwhile endeavor on the part of the Boosters to make the New Castle team in the Mid-Atlantic league welcome here in our city.

It is hoped that at least 1,000 tickets can be sold for the banquet, a fitting tribute, to owner John Gabri, Business Manager George Smith, Playing-Manager Bob Crow and the roster.

## Two More Trout Shipments Due

Eight Thousand Brown Trout Will Be Stocked In Slippery Rock Creek March 26

Clinton White, deputy fish warden, today announced one of the largest shipments of trout ever to be received in these parts. March 26 at 3:30 o'clock at Elliott's Mills, 8,000 brown trout in four truckloads for Slippery Rock creek.

March 24 at New Wilmington post office at 11:30 o'clock a shipment of rainbow trout for Little Neshaunock. As usual, it will take work to do this stocking, so all fishermen interested are asked to report at the designated places at the appointed hours.

## Wings And Rebels Open Title Series

Tonight at eight p. m. at the Y. M. C. A. the Wings and the Rebels tangle in the first game of their playoff series, destined to determine the champion of the House league.

A spirited battle for the crown is in prospect.

## South Hills Meets Sunday

The South Hills baseball team will meet at 2 o'clock at Marino's to discuss plans for the coming season. All last year's players are requested to attend, and any new players desiring try-outs are also asked to come.

## 'Lefty' Tanner Off To Eastern League

"This is my big chance in baseball so far, and I hope I can make the grade."

The speaker was Charles "Lefty" Tanner, popular East New Castle athlete, who leaves Monday for Hartford of the Eastern league to begin training in the fast class A circuit.

"Lefty", whose natural reticence balks overtures to discuss his diamond career, simply considers himself a "lucky guy" and hopes that he can keep climbing in the Boston Braves' chain.

The big blond outfielder (he now stands well over six feet and weighs 187 pounds), has done well since he entered organized ball in 1946. He started with Owensboro, Ky., of the Kitty league, a class D outfit, and then moved into class C ball with Eau Claire, Wis., of the Northern league.

"Lefty" is looking forward to his debut in the fast Eastern loop. "I hope I can justify the Braves' confidence in me and make the grade at Hartford. I have an extra desire to make good, since my manager will be Earle Browne, who piloted the Owensboro club. He has been moved up to the Hartford job and I have lots of respect for his baseball judgment and the way he handles players."

Tanner's career almost was nipped in the bud last season when he was laid low by a stomach ailment. He was sent home to recuperate and rejoined the club later in the season.

"I feel fine now," he stated. "I took it easy this winter, worked at the Shenango Pottery plant and didn't indulge in many sports."

The well wishes of a host of his New Castle friends go with "Lefty" as he seeks an outfield berth with the Connecticut outfit.

Its another rung up the ladder to the "big show" for the 19-year-old star, and it appears he has a firm grip and his eye at the top.

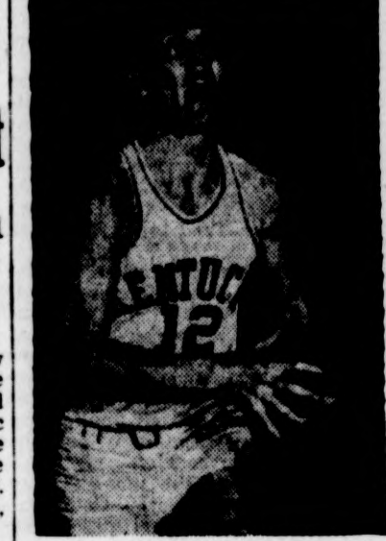

"LEFTY" TANNER Moves up a notch

## Crusaders Underdogs

## Kentucky Favored In NCAA

NEW YORK, March 20.—(INS)—The Kentucky basketball stars of Kentucky are five-point favorites to defeat Holy Cross in the NCAA Eastern Regional Basketball final at Madison Square Garden tonight, and thus qualify to meet the winner of the western tourney at Kansas City.

However, there are several elements involved which might lead

RALPH BEARD No. 1 Wildcat

to an upset win by the Crusaders over the confident Kentuckians.

For one thing, Holy Cross is the defending champion, which always means something in any sport. For another, the Crusaders have yet to taste defeat on the Garden court.

The contest shapes up something like a bout between a slugger and a boxer. Kentucky has height, power, aggressiveness and speed, in addition to accurate marksmanship and experience.

Drive slow—children move fast.

## Falcons To End Season Sunday

Falcons Will Play Sharpville Legion In 'Rubber Game' At Falcon Floor

The Polish Falcons will end their 1947-48 floor season at the Falcon Hall Sunday playing the Sharpville Legion in a third or "rubber game," each team having won a hard earned victory.

There will be a preliminary game Sunday at 2 o'clock, the Falcon Reserves meeting a good local team.

The game Sunday will probably see one of the greatest Polish floor stars in New Castle ending his career—Eddie "Cash" Koszela. A large crowd will no doubt be on hand for this fine engagement.

Campaign Fund Drive Is Begun

Auditor General Wagner's Departure From "Dem" Activity Being Felt

OTHER NEWS OF STATE AFFAIRS

HARRISBURG, March 20.—(INS)—The Republican party's annual drive for primary campaign funds has started on Capitol Hill. The GOP seeks one per cent of its pay-rollers annual salaries. Republicans call it "voluntary" contributions and Democrats call it more. They expect another hat will be passed prior to the November 4 election when the nation will choose its president for the next four years. An old timer complained that the party originally asked for money to help elect its gubernatorial candidate once every four years. "Now it's twice a year." The governor's office "has not" and "does not expect" to seek contributions, although Gov. James H. Duff has committed himself to support GOP State Chairman M. Harvey Taylor for nomination for re-election to the senate for a third term.

Auditor General G. Harold Wagner's departure from Democratic party activity reportedly has made itself felt among some followers by reason of his control of 400 office jobs. Wagner allegedly has experienced some satisfaction by figuratively forcing some Philadelphia Democrats on their knees over 44 jobs at stake. Reports emanating from his department allege a delegation of worried Philadelphia Democrats promised to work for the ouster of James A. Finnegan, Philadelphia Democratic chairman, to keep the jobs secure. Finnegan reportedly was one of the leaders who threw the party's endorsement for state treasurer to Sen. W. J. Lane instead of Frank A. Boylan, Wagner's administrative assistant.

A vain effort allegedly was made by National Committeeman David L. Lawrence, Pittsburgh's mayor, and others to place him. State Chairman J. Warren Mickle reportedly was dispatched to urge Wagner to run for delegate to the Democratic national convention as a write-in candidate after he had refused to file nominating petitions to place his name on the ballot. He had been endorsed. He was offered the chairmanship of the delegation.

tion in the effort to cement party relations during the presidential campaign. Wagner resisted, forced the resignation of Jackson Seal of Allentown, as secretary of the state committee and squeezed a promise from Mickle that he would withdraw from active politics. Both are employees in Wagner's department. Mickle was permitted to serve out his term as state chairman ending in May.

Walter Mumma, Harrisburg construction supplier, got a start in this campaign to squeeze Republican State Chairman M. Harvey Taylor out of the race for the latter's senate seat. Mumma drew top place on the Republican ballot, the place believed worth several thousand votes at the outset. Taylor is seeking re-election for a third term in the upper chamber without fear despite his organization's close shave in electing a mayor during 1947. Taylor, who has delivered the voting goods for the party for many years, has the solid support of Gov. James H. Duff in his fight. His cause is the only one that the chief executive intends to espouse during the primary campaign which is strictly an intra-party matter.

Third U. P. Seeks Attendance Of 600

New Record To Be Sought At East Side Church On Sunday

ON TO 600!!! That is the slogan which is being voiced by everyone at the Third U. P. Bible school. And indeed they are well on the way toward reaching the goal. Last Sunday, March 14, 589 were present, and it is the hope of the officers and contest committee that many more will be in attendance this coming week.

This school, while it is not participating in the inter-city contest, is putting forth every effort to make great gains in all four of the advancement efforts outlined for week-end attendance contests, namely: attendance, evangelism, Bible reading and church attendance. On March 14, 13 classes had 100 per cent or more in attendance and nine classes had 100 per cent attendance for the worship service.

Those classes having 100 per cent attendance are: Mrs. Clayton Bryan, 100; Mrs. L. Gray, 100; Miss Helen Kubie, 100; E. Johnston, 100; Mrs. George Glass, 100; M. Reynolds, 100; Mrs. Ernest Krag, 100; C. Byler, 100; G. Glass, 100; P. A. L., 150; J. O. Y., 129; Y. L. B., 104; Truth Seekers, 100.

Those classes having 100 per cent of their attendance remaining for the worship service are: Mrs. T. Coultas, Mrs. J. Rupert, Mrs. D. Aze, Mrs. W. Schoenfeld, E. Johnston, Miss C. Aze, A. J. Minick, C. Byler and Truth Seekers.

One hundred fifty children were in attendance at the junior church service. This service is conducted on the same general lines as the regular worship service and is a special training for the young people taking part in the program each week. A very special feature has been planned for this week, when guest speakers will participate. Special music will also be a feature.

The Teachers and Officers association has planned a conference for March 31 to which all interested in the school are invited. This conference will be in the form of a preview of the coming quarter's lessons and will provide many helps for the teachers in preparing their teaching outlines for the next few months. Dr. J. Paul Graham, pastor of the church, and Miss Louise Campbell of Pittsburgh will be the main speakers. Miss Campbell is religious director of the Eighth U. P. church, Pittsburgh, and will preview the children's division work.

The Bible school cabinet will hold its regular meeting at the same time, and a revision of the school roll will be made and contest results tabulated.

**Moth Starvation Found Best Remedy To Lessen Damage**  
NEW YORK.—(INS)—A new durable moth-proofing chemical, applied in the textile mill will at last remove the fears of the average housewife of moth damage to her choice wool clothes, blankets or carpets, it was announced recently.  
After years of research, chemists have decided that the best way to fight the moth is not to try to kill him, but to starve him to death. Ernest J. Conway, president of Bocon Chemical Corporation says the key is to make a moth's food distasteful.  
Scientists found that wool fiber is made up of tiny molecules which are chain-like in structure. In the middle of each chain are two sulfur atoms, which chemists call the di-sulfide linkage.  
**Peculiar Arrangements**  
It is a peculiar arrangement of sulfur atoms which the moth finds tasty, Conway said.  
Conway added that the most recent developments have been in the discovery of "Boconize" a compound which protects the link and also stays on the fabric when it is washed or dry cleaned.  
Conway claims that Americans are becoming so moth-conscious that in five years, most textile mills will be moth-proofing their entire wool fabric production.

**Celery Brings Big Returns On Farms**  
HARRISBURG, March 20.—Highest gross money return per acre from commercial vegetables grown in Pennsylvania last year was an average of \$917.78 from celery, the State Department of Agriculture announced following Federal-State surveys of truck crops grown for fresh market.  
Second in value per acre were onions which averaged \$685 gross return, the survey revealed. Strawberries came third at \$520 per acre and carrots fifth at \$405 gross return per acre. Sweet corn at \$118 was lowest in acre value of 13 crops surveyed.  
During the 1947 season celery was grown commercially on 450 acres; production was 360 half- crates per acre or a total of 162,000 crates. They averaged \$2.25 each in farm value or a total of \$413,000 for the state.  
Snuff—200,000 pounds of it a day—still is used in the United States.

**Splendid Easter Program Presented By Croton Pupils**  
A splendid Easter program was presented by the different classes of the Croton grade school on Thursday afternoon, when several playlets in which many of the students took part were presented.  
A special feature of the program was a vocal solo, "The Holy City," sung by James McQuiston, and a trumpet solo, "The Palms," by Ronnie Bonfield.  
Jack Micco, grade five, had the leading part portraying the doctor in a humorous playlet presented by his class. The Easter fashion parade featured several pupils and was especially well done. The music was under the supervision of Miss Carolyn McElwain with the dramatics and drill work in charge of Miss Mildred Sargent. A special added attraction was the Easter scenery, made by the art department under the direction of Mrs. Morfydd Brown.  
The tusks of approximately 4000 elephants are required annually to supply the world with billiard balls.  
The combined length of the Mississippi and Ohio rivers is about 4200 miles.
